

WE HONOR VETERANS

Serving those who served us

A program designed to address the unique needs and challenges facing veterans at the end of life

America's veterans have done everything asked of them in their mission to serve our country. We believe it is never too late to give them a hero's welcome home. That is why Hospice of Michigan is proud to serve those who have served us.

Today, one in four dying Americans is a veteran. These men and women often carry experiences from their military service that present unique challenges at the end of life.

OUR COMMITMENT

Hospice of Michigan believes in honoring the men and women who served our country, so we have joined with the National Hospice and Palliative Care Organization (NHPCO) and the U.S. Department of Veterans Affairs to care for our veterans at the end of life.

We Honor Veterans is designed to address the unique needs of dying veterans. Our participation in this program allows us to streamline the referral/admission process for patients, connect you with community resources, and offer the services of staff and volunteers who are trained to meet the challenges faced by veterans and their families at this difficult time.

In most instances, Medicare, Medicaid and other insurance providers cover the costs of hospice care. Veterans who are not covered under one of these agencies are covered under the Veterans Administration's benefit program.

Hospice of Michigan is honored to be a Level IV participant in the We Honor Veterans program.

A nationally recognized leader in end-of-life care, Hospice of Michigan is the original—and largest—not-for-profit hospice provider in the state. Since 1978, we have remained committed to our not-for-profit mission to care for all those who need and seek our care regardless of age, diagnosis or financial circumstances.

As a member of the NorthStar Care Community, we collaborate with other not-for-profit providers, sharing a goal to continually provide unsurpassed care, guidance and quality of life for patients facing serious illness, which includes practicing the highest standards of hospice and palliative care. Collectively, we touch the lives of more than 9,800 patients and families each year.
